1 Executive summary

General

The HFSP Board of Trustees approved the following awards for 2024:

- 34 Research Grants out of a total of 711 eligible Letters of Intent and 100 Full Proposals (34%). Of those awarded, 25 were Research Grants-Program and 9 were Research Grants-Early Career. The success rate of HFSP Research Grants in 2024: 4.8%
- 59 Postdoctoral Fellowships out of a total of 535 Letters of Intent and 107 Full Proposals (55%). Of those awarded, 48 were Long-Term Fellowships and 11 were Cross-Disciplinary Fellowships. The success rate of HFSP Fellowships in 2024: 11%

Australia

With awards starting in 2024, HFSP will support:

- Australia based scientists who are involved in 3 out of the 34 HFSP Research Grants awarded in 2024. These three scientists are co-investigators in Research Grants-Program teams.
- One Cross-Disciplinary Fellow from Germany who will work in an Australian research institution.

For awards in previous years, see *Chapter 4 Australia 1990-2024*

2 Introduction to HFSP programs

The International Human Frontier Science Program Organization (HFSP) funds an international program of research support for frontier research on the complex mechanisms of living organisms through the Human Frontier Science Program (HFSP). Research is funded at all levels of biological complexity from biomolecules to the interactions between organisms.

Key elements of HFSP's mission are to support innovative, cutting edge research at the frontiers of the life sciences, to encourage high risk research, to promote international collaboration in the spirit of science without borders, and to support early career researchers.

HFSP schemes are highly competitive, but also highly prestigious. This prestige, together with the fact that the schemes provide researchers with unique opportunities to work collaboratively across all countries and disciplines, attracts many outstanding applications each year.

HFSP Research Grants (Research Grants-Program and Research Grants-Early Career) provide 3 years of support for international teams involving at least two countries. Preference is given to intercontinental collaborations (rather than all N. American or all European teams). All team members are expected to broaden the character of their research compared to their ongoing research programs and interact with teams bringing expertise that is very different from their own so as to create novel approaches to problems in fundamental biology. All members of a Research-Grant Early Career team must be within 5 years of establishing their independent research group and no more than 10 years from their doctoral degree. Research Grant-Program teams may consist of team members at any stage of their career as independent investigators. Each grant is an award to at least two researchers from different countries. Furthermore, HFSP expects that by creating new exchanges, these international interactions will lead to innovative projects.

There is a single annual competition for HFSP Research Grants and a full description of the review process is available at:

https://www.hfsp.org/funding/hfsp-funding/research-grants#review_procedures

HFSP Fellowships support innovative, ground-breaking projects that have the potential to advance knowledge in the applicants' field of study or open a new approach to a research problem. High risk research is supported.

Long-Term Fellowships support applicants with a degree in the life science to obtain training in a new area of research in an outstanding laboratory of their choice in another country. *Cross-Disciplinary Fellowships* are intended for postdoctoral fellows with a degree outside the life sciences (e.g. physical sciences, chemistry, mathematics, engineering or computer sciences) who wish to receive training in biology. HFSP Fellows receive 3 years of support to obtain training in an outstanding laboratory of their choice in another country. The annual competition for HFSP Fellowship awards is explained in detail at <http://www.hfsp.org/funding/postdoctoral-fellowships>.

3 Awards in 2024 for Australia

HFSP support provided to Australian and non-Australian scientists working in Australian laboratories, and Australian scientists working abroad.

3.1. Overview

Research Grants

Scientists working in Australia who will collaborate in HFSP international research teams (co-investigators):

Research Grants-Program 3

Fellowships

Number of fellowships awarded to foreign scientists who wish to work in Australia:

Cross-Disciplinary Fellowships 1

3.2 Research Grants 2024

Scientists working in Australia who will collaborate in HFSP international research teams (co-investigators)

Research Grants-Program

PI: COUDRET Christophe, France

RAINA Jean-Baptiste
(France)

Climate Change Cluster
University of Technology Sydney

Illuminating Microbial Communication
Networks: The Phycosphere lab

PI: DEL BENE Filippo,

France(Italy),

RAMIALISON Mirana
(Madagascar)

Dept. of Stem Cell Medicine
Murdoch Childrens Research Institute
Parkville

Decoding invisibility: from genome
evolution to tissue optical properties
in transparent fish

PI: HWA Terence, USA,

FRITZ Georg
(Germany)

School of Molecular Sciences
University of Western Australia (UWA)
Perth

Elucidating physico-chemical forces
setting the limit of bacterial growth

3.3 Fellowships 2024

Fellowships awarded to foreign scientists who wish to work in Australia

Cross-Disciplinary Fellowships

GRÜNING Gesa Germany	From	Carl von Ossietzky University Oldenburg Oldenburg Germany	<i>Is quantum coherence important in coupling the antenna system to the photosystem in cryptophytes?</i>
	To	University of New South Wales Sydney Australia	Supervisor: CURMI Paul

4 Australia 1990-2024

This section summarizes Australia's involvement in HFSP funded research projects in 2024 and integrates a historical perspective with running totals over the last 10 years.

4.1 HFSP Research Grants

The table below lists the number of Australia based scientists at the Letter of Intent (LI) stage and those scientists who participated in a Full Proposal. The data shown in the table express the status at the time of submitting the application to HFSP. Scientists may have moved their laboratory to a different country in the years after receiving HFSP support.

	Letters of Intent (LI)		Full Proposals (FP)		Awardees (AW)	
Year	All team members	Australia based scientists	All team members	Australia based scientists	Total Awarded	Australia based Awardees
1990-2014	28944*	1002	17891+	344	3607	69
2015	3092	101	252	7	98	2
2016	2604	90	272	8	100	1
2017	3208	155	252	8	98	4
2018	2321	98	251	15	102	5
2019	2394	94	268	10	105	2
2020	2051	86	256	8	86	5
2021	2062	74	292	12	94	2
2022	2032	69	206	5	100	5
2023	1672	65	247	11	107	4
2024	1978	72	313	9	108	3
Total	52358	1906	20500	437	4605	102

*there were no Letters of Intent in the application process before 2001

+ for 1990/91, there is no information available on the number of applicants

The table below lists the number of teams including Australia based scientists in the last 10 years.

	Letters of Intent (LI)	Full Proposals (FP)	Awardees (AW)	Success rate based on LIs (%)	Success rate based on FPs (%)	Total Awarded teams
Year	Teams with member (s) in Australia	Teams with member (s) in Australia	Teams with member (s) in Australia			
2015	86	7	2	2,3	28,6	31
2016	78	8	1	1,3	12,5	32
2017	125	7	3	2,4	42,9	30
2018	82	13	5	6,1	38,5	31
2019	88	10	2	2,3	20,0	34
2020	84	8	5	6,0	62,5	28
2021	72	12	2	2,8	16,7	28
2022	68	5	5	7,3	100	32
2023	61	11	4	6,6	36,4	34
2024	70	9	3	4,3	33,3	34

4.2 HFSP Postdoctoral Fellowships

The table below shows the number of fellowship applications reviewed and awards granted to Australian applicants and the number of fellowships applied for and carried out in Australia.

Award year	Australian fellowship applicants	Total applicants	Australian fellowship awardees	Total awards	Australia as proposed host country by fellowship applicants	Australia as host country of HFSP fellows
1990-2014*	353	16,150	48	2,844	348	29
2015	6	788		75	26	
2016	12	697		75	12	1
2017	17	776	2	72	28	1
2018	9	588		90	19	2
2019	3	580		82	20	
2020	8	544	2	65	8	2
2021	12	665	2	56	23	1
2022	3	493	1	65	10	3
2023	11	429		50	17	1
2024**	11	535		59	9	1
Total	445	22,245	55	3,533	520	41

* The number of candidates from and to Australia for award year 1990 to 1992 is not available.

** The figures for 2024 reflect the awards approved by the Board of Trustees in March 2024 and may be subject to change.

5 International distribution of 2024 awards

As last year, this section shows tabular breakdown according to country (location of laboratory), nationality and host country (of HFSP fellowship holders) for 2024 Awards.

In addition, this year, new figures present a country comparison for the complete record and the last 10 years of HFSP awards for MSP and a separate presentation for the awardees in or from European countries.

5.1 Research Grants 2024

34 grants were awarded (25 Research Grants-Program and 9 Research Grants-Early Career). Each grant is an award to at least two researchers from different countries. The Principal Investigator is responsible for submitting the application and coordinating the collaboration.

The countries in which the 34 Principal Investigators and the 74 co-applicants work are shown in Table I, together with the total number of applications. Their nationalities are shown in Table II.

5.2 Fellowships 2024

In 2024, 535 fellowship letters of intent were reviewed. 48 Long-Term Fellowships and 11 Cross-Disciplinary Fellowships were awarded to young post-doctoral scientists who wish to work in a laboratory abroad.
